

## **REMARKS**

### **1. No Fee for Claims**

The claims are not amended. Thus, it is understood that no fee for claims is required. However, in the event the Office determines a fee for claims is required, or that another fee is required, please charge such fee(s), and please credit any overpayment of a fee, to the undersigned's deposit account 04-0039 (ref. 50534.1).

### **2. Entry of Amendments**

The title of the invention is changed to include covers in addition to window covers per se. This revision is supported at various places in the as-filed application, for example, in the as-filed versions of the first two paragraphs of the Detailed Description, which are amended above and discussed below; and in the first paragraph of page 2 of the specification, which defines exemplary types of, and applications for, covers.

In the first paragraph of the Detailed Description, which describes Figs. 1 and 2 of the application drawing, the word "base" is added to the description of support component 11 of the illustrative cover, so that the description now reads "housing or support or base." The word "base" was present in several of the as-filed independent claims, including in claims 1, 7, 10, 16, 37 and 38. Furthermore "base" is believed synonymous with "support or housing."

In the second paragraph of the Detailed Description, which describes Figs 3 and 4, the words "support" and "base" are added to the description of component 11, so that the description now reads "housing or support or base," consistent with the description of the support component 11 in the above-discussed first paragraph of the Detailed Description.

No new matter is involved. Entry of the specification revisions is requested.
